DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 21, 2007 has been entered.

Obviousness-type Double Patenting

Claims 1-14, 20-21 and 31-32 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-20 and 27-51 of copending Application No. 10/166,437. Although the conflicting claims are not identical, they are not patentably distinct from each other because overlapping subject matter is involved. Note that the species in 10/166,437 anticipate the present claims.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Claims 1-14, 20-21 and 31-32 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 20-76 of copending Application No. 10/743,563. Although the conflicting claims are not identical, they are not patentably distinct from each other because overlapping subject matter is involved. Note that the species in 10/743,563 anticipate the present claims.

Art Unit: 1624

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Conclusion

Claims 1-14, 20-21 and 31-32 are pending. Claims 1-14, 20-21 and 31-32 are rejected. No claims are allowed.
